

Lotus Sport T4 and T4e ECU – Track Optimised

Description

A Lotus ECU with the cam switch point optimised for track usage (switch point revised to 5750 from 6200 rpm). This allows the driver to maintain the use of the high-lift cams during track driving, whilst avoiding unwanted switches to low-lift cams. All other functionality of the original ECU program is retained, preserving the full European emissions compliance of the powertrain.

Applicable vehicles

Elise 111R Non Federal
Exige Non Federal

Features

Transition to high-lift cams at 5700 rpm (standard set at 6200 rpm)
Simplistic installation
Full retention of European emissions compliance

Part(s) supplied

Lotus T4 Manual ECU AL53M0215F
Lotus T4e Electronic Throttle ECU AL53M0244F

Prices:

T4 or T4e ECU with Program £795.00 + VAT
Program Only £395.00 + VAT (supply of ECU required)
